Concluding Section 11

Background

St Anthony Regional Hospital and Nursing Home

St Anthony Regional Hospital and Nursing Home conducted a community needs assessment in accordance with Section 501 r requirements of the Internal Revenue Code. The federal Patient Protection and Affordable Care Act passed in 2010 established requirements that hospitals must comply with in order to maintain their federal tax exempt status. Conducting health needs assessments is included among these requirements; the assessments must be done a minimum of every three years.

The 2016 needs assessment was completed and adopted by the St Anthony Regional Hospital and Nursing Home Board of Directors before the June 30th tax year closing. As with the previous assessments, this assessment is intended to help the hospital better understand the health needs of residents in the St Anthony Hospital service area. This assessment will be used to target interventions focused on selected community health needs.

The federal requirement also call on hospitals to develop implementation strategies, or health improvement plans, based on the assessment to ensure that community benefit investments focus on documented needs. St Anthony Hospital intends to coordinate efforts with the Carroll County Public Health Department to ensure that community benefit resources address area needs and improve the health of residents in our service area.

Mission

The mission of St. Anthony Regional Hospital and Nursing Home is inspired by faith and committed to excellence. We are dedicated to improving the health of the people we serve. We will lead in providing high quality, high value healthcare services responsive to the needs of our patients and the region. We are committed to the health ministry of our sponsors, the Franciscan Sisters of Perpetual Adoration.

Vision

As a faith-based regional provider, St. Anthony will continue to be the recognized leader in mission focus, quality care and fiscal strength in Iowa. The mantra of St. Anthony Regional Hospital and Nursing Home is health, healing and hope.

Service Area

St. Anthony Regional Hospital & Nursing Home is located at 311 South Clark Street, Carroll, Iowa. St. Anthony Regional Hospital service area was determined by a review of past year inpatient admissions and outpatient visits. Approximately 90% of patients came from six counties. The six counties of Audubon, Carroll, Calhoun, Crawford, Greene, and Sac comprise the hospital's primary service area.

Priority Needs

The following priority health needs were identified in the St Anthony Regional Hospital and Nursing Home service area through this community health needs assessment process. The needs are presented in alphabetical order.

Alcohol and Tobacco Use

Reduce the high rates of alcohol and tobacco use prevalent among area adults and youth.

Cancer

Reduce prevalence of, and deaths resulting from, cancer among area residents.

Chronic Disease Management & Health Education

Expand chronic disease management programs, especially for resident with diabetes and heart disease, and health education programs.

Cost

Expand coverage and provide relief from financial barriers to improve access to care for uninsured and insured residents.

Hours of Operation

Expand clinical services hours to avoid lost wages due to taking time off from work.

Insurance Issues

Provide informational sessions on health insurance coverage and optimal use of insurance.

Linguistic/Cultural Issues

Expand linguistic and cultural awareness and capabilities of providers to meet the needs of an increasingly diverse patient population.

Maternal and Child Health

Expand access to prenatal care to all pregnant women in the service area to improve birth outcomes.

Mental Health

Improve access to mental health services provided in the most appropriate setting, for both adults and youth.

Nutrition, Obesity and Exercise

Improve nutrition, reduce the rate of obesity and increase physical activity for area residents.

Transportation

Improve access to transportation for health and medical visits.

Vaccinations

Increase vaccination as means of reducing flu and pneumonia, particularly among elderly residents.

Implementation Strategy

Senior leaders of St Anthony Hospital reviewed the assessment findings and prioritized needs. Consideration was given to existing expertise and capacity, as well as the effectiveness and feasibility of possible interventions. These factors were all taken into consideration when developing this implementation strategy.

The following significant needs will be addressed by St Anthony Hospital through the programs or actions described below. Also included are resources that will be committed to the effort and the anticipated outcomes and goals related to these actions. Collaboration with other organizations in addressing needs will be described where such collaboration is anticipated and relevant.

Alcohol & Tobacco Use

St Anthony's Hospital will utilize the following strategies and actions to address the use of alcohol and tobacco in the service area.

Strategies and Actions

- Screen hospital in-patient and out-patient visitors on history of use/abuse of alcohol, tobacco and other drugs.
- Refer hospital patients currently smoking or with a history of smoking to respiratory therapy for assistance with smoking cessation.
- Refer adults to Quitline Iowa for smoking cessation assistance.
- Partner with groups working on tobacco and alcohol prevention efforts focused on youth.
- Conduct community outreach and education on the health effects of tobacco and alcohol use.

Staff Time

Expected Outcomes

Increase percentage of elderly residents receiving flu and pneumonia vaccinations.
Reduce hospitalization rates for area residents due to flu and pneumonia.

Significant Health Needs Not Addressed Through This Plan

Hours of Operation

How would you like to address this?

Transportation

The Public Health Department helps in addressing the transportation needs by maintaining a list of available taxi services and raising funds to support taxi vouchers for elderly patients. However, given the challenge of ensuring adequate transportation in a rural area, this is not a need that will be addressed by St. Anthony due to a lack of infrastructure and expertise.

Are there others??
